

SEED PITCH · £75,000 FOR 10%

Base44 CPD App

Turn static CPD logs into a living, evidence-backed career knowledge graph.

For project managers, IT leaders and technical professionals

Providers like APM and BCS stop at a framework and a static log

What they offer

A competency framework with ratings per competency, plus a static CPD log.

No evidence

Nothing to support CPD progress or to back up current competency ratings.

No planning

No gap analysis, and no way to log, track or manage a development plan.

No linkage

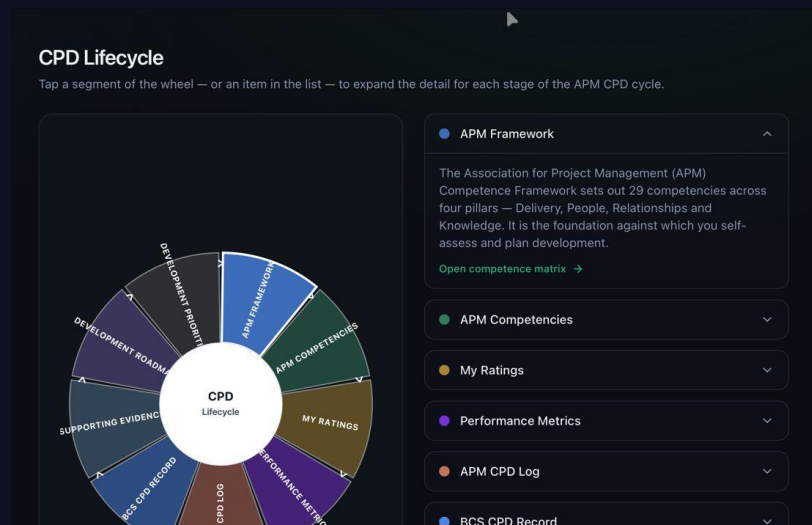

CPD log and competencies are never connected to each other.

THE SOLUTION

A full CPD lifecycle, fully linked

Framework → competencies → my ratings →
metrics → logs → evidence → roadmap →
development plan.

Every log, competency, evidence item and plan task
links both ways, created manually or with AI-
suggested links and tasks.

Four customer groups, one product

Individuals

Professionals tracking CPD, charterships and promotion.

CPD providers

Bodies such as APM and BCS.

Education sector

Learners and institutions building evidenced development.

Employers

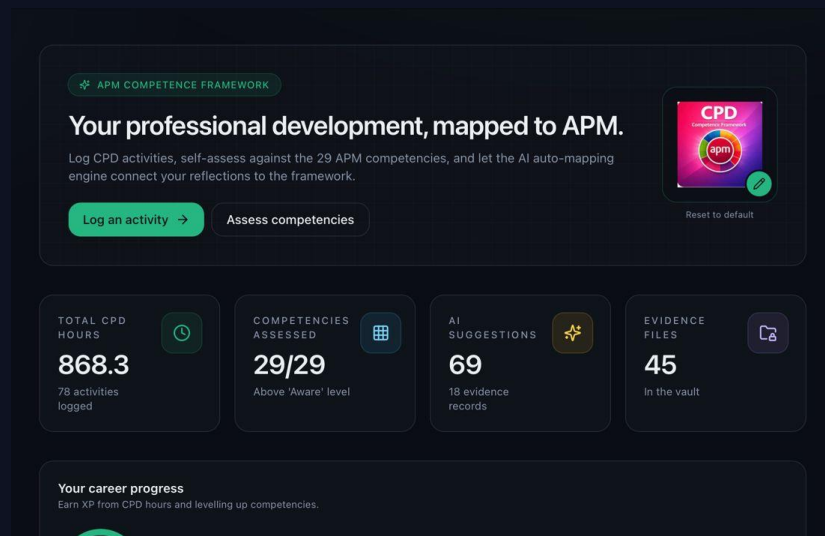

Support performance reviews, appraisals and career development.

13 live features, all built and working

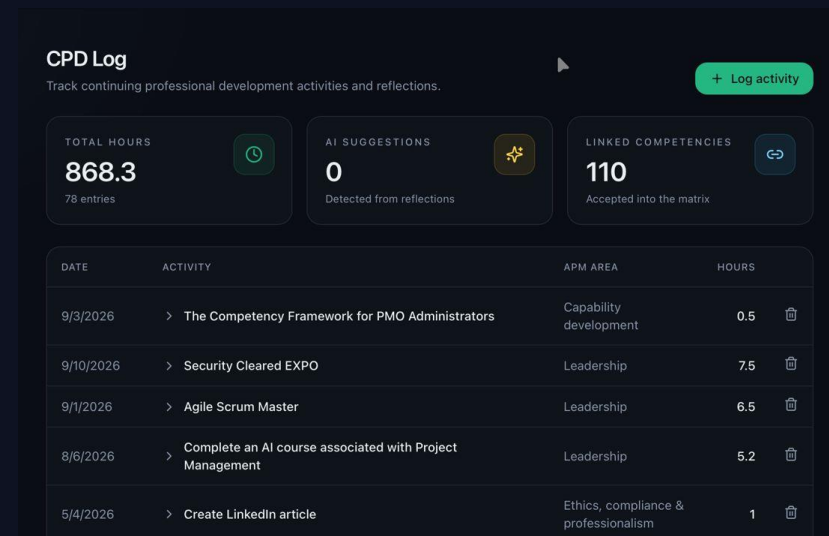

- Lifecycle framework
- CPD log: import, reporting, AI-suggested entries; AI and manual links to competency, evidence and plan
- Competency ratings: import or manual, reporting, AI and manual links
- Dashboard with metrics and KPIs
- Automated awards and badges
- Gap analysis with suggested tasks
- Evidence vault linked to CPD, plan and competency
- Development plan linked to CPD, evidence and competency
- Career simulator: current role vs target role
- To-do list
- Full reporting suite (PDF and PowerPoint)
- Profile page
- Link to CV app

PRODUCT

Dashboard and CPD log

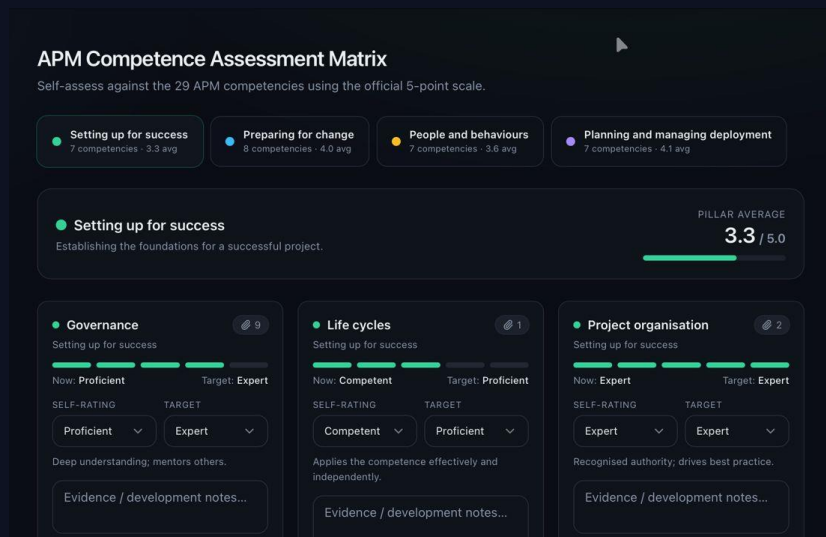

Dashboard: total hours, competencies assessed, AI suggestions, evidence files, XP levels, streaks and badges.

CPD log: dated activities, APM area, hours and linked competencies, with AI suggestions.

Competence matrix and gap analysis

Self-assess all 29 APM competencies with current vs target rating and attached evidence.

PRODUCT

Evidence vault and development plan

Evidence Vault

Cloud attachments tied directly to CPD logs and competence rows.

Description (optional)

e.g. Risk register extract, training certificate

Upload files and link each to a CPD entry or competency.

3, 6 and 12-month roadmap with trackable development tasks.

Career simulator and reporting

CAREER SIMULATOR

Simulate your path from Programme Manager to PMO Lead / Portfolio Manager.

Pick your current role and the role you're aiming for. The simulator maps your APM competency assessments against what the target role demands and builds a realistic, AI-generated development plan with milestones, CPD focus and first steps.

What investment accelerates

1. Packages

Corporate and personal packages.

2. LinkedIn

LinkedIn integration.

3. Profile badges

Show current badge level on the profile page.

4. Social sharing

Share badge progress on social media.

5. Light / dark

Light and dark mode toggle.

6. Calendar scan

Gmail and Outlook calendar integration to find events for the CPD log.

THE ASK

£75,000

for 10% equity (£750k valuation)

Marketing

Targeted growth to professionals.

Enterprise onboarding

PMOs, providers, professional bodies.

Roadmap delivery

Packages, LinkedIn, calendar integration.
